ABOUT US

t.Lab is a not for profit high-performance learning laboratory founded in 2007 that serves students in prekindergarten through undergraduate. t.Lab focuses on assisting students and parents with realizing extraordinary academic achievements by leveraging a hybrid curriculum including Humanities, Leadership, Liberal Arts, and STEM disciplines. The delivery model harnesses both skilled professional learning facilitators and a digital virtual content delivery system. Engaging and assisting parents in student development is a core competency.

t.Lab is headquartered in Garden City, Michigan at Schoolcraft College, and supports parents and students worldwide.

Since our inception, we have served approximately 3,800 parents and students in the U.S., Hungary, Kenya, Lebanon, Nigeria, and the Philippines.

MISSION

Our mission is to create extraordinary academic achievement especially among urban students, to prepare them to assume leadership roles in careers as entrepreneurs, physicians, nurses, research scientists and in other professions.

WHY US?

We are driven by our passion to lead and outperform the market. Our accelerated learning model, while still developing, is producing extraordinary academic results. Your return on investment can easily be measured by our results in the following areas:

- 1. Academic Performance (Median ACT Score & GPA)
- 2. Parental Coaching and Engagement
- 3. Scholarship Development Strategy & Execution
- 4. Internal Investment

ACADEMIC PROGRAM

<image>

t.Lab's custom curriculum is based on the American College Testing (or ACT) core competencies. Therefore, student academic skill development focuses on English, Math, Reading and Science. In addition, our curriculum includes language, leadership development and technology. Our standards of performance far exceed those of most K-12 academic institutions including a top 10th percentile performance standard. Our expectations and performance standards are well above the market standards. We are aggressively pursuing a "college competence standard" for all students by the end of 6th grade. This standard requires that our 6th grade students will realize a minimum composite score of 21.5 on the ACT.

A principle covenant of our academic performance model is predicated on scholarly research that examined the effect of quality tutoring on academic performance. This research concluded that 1 hour of quality tutoring per week, combined with an average K-12 curriculum, should enable students to realize 3-5 completed grades per year. Therefore, t.Lab seeks to provide each student with a minimum of 2 hours of quality tutoring each week. Our students average a range of 6-12 hours per week in academic development activity outside of their normal K-12 curriculum. Our FY 2020 median ACT Score is "30.7" in a market where the highest median ACT score by ethnicity was "24.9" (Asian Students).

PARENTAL COACHING AND ENGAGEMENT

Parent University is the most significant element of t.Lab. We provide parents and guardians with assistance in child development, academic development, college selection, scholarship development, and guiding students through their college careers. Activities include planned formal monthly seminars and ongoing training and development in areas such as emotional intelligence, leadership assessment, and technology skills. 95% of our parents who regularly engage in our Parent University are realizing targeted performance objectives from their children. This would include metrics like grade point average (GPA), ACT Scores, and college scholarships to name a few. Participation in Parent University is a requirement for all parents.

SCHOLARSHIP DEVELOPMENT STRATEGY & EXECUTION

A four (4) year college degree is valued at \$250,000. Our college scholarship target is a minimum of \$300K per student. Our formal college scholarship development strategy and execution program is rapidly improving in both efficiency and effectiveness metrics. In fiscal year 2020, t.Lab high school seniors (5) are expected to realize more than \$1M in academic scholarships. Likewise, our formal "high school to college transition program" continues to yield significant results. In FY 2020, no freshman student was required to take a remedial course.

//

INTERNAL INVESTMENT

t.Lab uses a service fee model to partially support operations. As well, most years we conduct two fundraisers. Since FY 2008, t.Lab has invested a range of 55% to 75% of collected service fees into students and parents. Through our discounting and scholarship programs, we invested \$61,359.32 in FY 2020. t.Lab's leadership including the founder, board of directors and strategic partners have made considerable cash investments each year.

CURRICULUM

We believe that a self-directed learner is the best learner. Therefore, our model of learning and teaching is predicated on each individual student "learning how to learn." Our learning analyst, learning facilitators, coaches, mentors and tutors "facilitate" the learning process, engaging parents, motivating students to excel, and providing a resource for applying the disciplines we teach.

Our goal is for students to master college level competence in core subjects by the end of sixth grade. Accomplishing this will require strong academic preparation and growth. To that end, t.Lab offers a wide range of curriculum designed to strengthen the academic ability of students and prepare them for college.

t.Lab's Core Programs are:

- English
- Mathematics
- Reading
- Science
- Writing
- Humanities
- Foreign Language
- Advanced Mathematics
- Advanced Computer Science (leveraging t.Lab's proprietary curriculum)
- Public Speaking
- ACT Preparation
- SAT Preparation
- Calculator Training

- Memory Training
- Spelling Bee
- Study Skills Course
- Technology Skill Development & Certification (over 150 technologies)
- Financial Laboratory and Bloomberg Training
- Leadership Development (Leveraging t.Lab's proprietary leadership model)
- Mentorship (leveraging t.Lab's Research & Development model)
- Parent University (leveraging t.Lab's student development model)

SPONSORSHIP OPPORTUNITIES

Event: 8th Annual Black Tie Ball

Date: Friday, June 25, 2021 at 6:30PM Venue: Virtual Goal: Raise \$200,000 to fund t.Lab programs especially the Drive to 25

This event will honor high performing t.Lab staff and students for excellence in academics, coaching, mentoring, tutoring, and information technologies. As well, community leaders with significant contributions in the education sphere, especially in STEM, will be recognized.
